

Nobleton Seniors' Apartments. 48 Wilsen Road. York Regional Housing Authority opened the building in November, 1977. There are 26 one-bedroom units in a two-story walk-up building. When the building first opened, applicants had to have lived in York Region for 12 months to be eligible; however, today, you must simply be a resident of Ontario to qualify. The lovely landscaping, garden plots and floral displays on the balconies and patios are appreciated by everyone who passes by the building. The gardens were part of a garden tour in 1995 sponsored by the Nobleton and District Horticultural Society. In 1990, residents of town learned how big a septic system is needed to service 26 apartments, as we watched, in amazement, the replacement of the building's septic system.
